Thursday July 1st 2010

From: Mr. Jason M Gallovich (grantee contact)
Grantee code: T9R

Subject: FCC – Professional installation justification letter

This letter is to provide an explanation for (professional installation designation) of equipment model # BS-SB-1 FCC ID: T9RHAWKEYE.

This equipment requires the use of an external antenna which must be mounted on high sites. The sites may include towers and or building roof tops. These installations must be performed by professionals who have authorization and training to access and work on or at these locations. Special equipment such as harnesses and rigging must also be used.

Therefore it is understood that this equipment is not sold to the general public. It is further understood that the intended use of this equipment is generally not for the general public. It is primarily intended for industrial/commercial use.

Installation requires the following;

- Installation must be controlled and performed by a professional.
- Installer must have climbing and rigging experience when installing in elevated locations or on masts.
- Installer must be authorized to gain access to installation sites.

Regards,

Jason M Gallovich
President - 4126254 Canada Inc.
